SCHEDULE CHANGES

I apologize for the inconvenience of the practice schedule changes as of late. Initially when we asked APS for pool time there were some dates that they said would be unavailable. When we received billing from them for our practice time we noticed that some of the dates we had asked for (and had been denied) were on the invoice. We then found out that they had changed their mind & we had been okayed to practice on those dates! This mainly concerns the week of spring break for APS (the last week in March). So if you are looking at the calendars I hand out & wondering why they do not match up - that is why.

Please use the latest version (attached) of the calendars for March & April as the corrected ones.

Please know that I am NOT trying to confuse anyone, please be patient as we try to work through our new surroundings.

Thank you to Karen Welter who has been working hard with APS to make everything run smoothly.
